

# Is Clinical Virtual Reality Ready for Primetime?

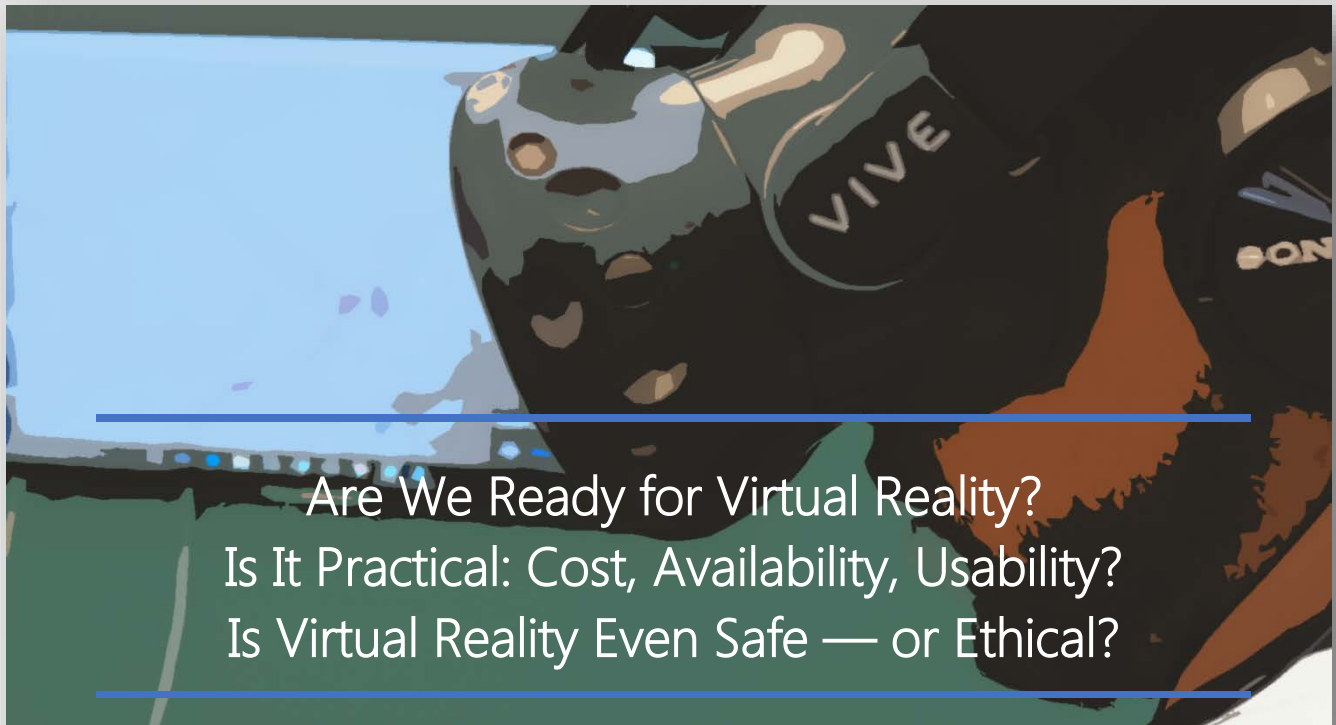

Come hear Skip Rizzo, a pioneer in the use of VR and other technologies in treating PTSD for the military, TBI, Autism, Alzheimer's, Stroke and more.

Thursday, November 30

4:00 – 5:30 p.m.

Education 1 Building, P26-1300  
13070 East 19th Avenue, Aurora, CO

Free and Open to the Public

Are We Ready for Virtual Reality?  
Is It Practical: Cost, Availability, Usability?  
Is Virtual Reality Even Safe — or Ethical?

**Albert "Skip" Rizzo, Ph. D., Director  
Medical Virtual Reality Lab, Institute for Creative Technologies, USC**

Dr. Rizzo explores two decades of virtual reality research and practice, the assets at hand for clinical applications, and the forms that VR technology takes.

Is this the wave of the future for mental health care?

**Hear Rizzo make the case that clinical VR tools will become indispensable – faster than you might think.**
